

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught the specific z-folding operation followed by a second folding step wherein the elastic was trapped between the folded portions and disposed in the middle of a strip shaped sheet in order to form a standing gather forming member having a basal wall. The reference to Suzuki et al suggested the finished assembly but failed to teach a z-folding step. While z-folding was known in the art for forming a leg cuff component as suggested by Nakaoka et al or French Patent 2,711,057, neither employed a second folding operation whereby the other side portion of the strip shaped sheet covered the part of the middle portion remaining uncovered by the first side portion and also overlaying the z-folded portion of the first side portion. While the use of folding boards was well recognized, the use of the boards to fold in the specific manner claimed was not anticipated or rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
